Re: Case 22-T-0654 - Application of Niagara Mohawk Power Corporation d/b/a National Grid for a Certificate of Environmental Compatibility and Public Need Pursuant to Article VII for its Lockport-Batavia Line 112 Rebuild Project in Niagara and Genesee Counties

Dear Secretary Phillips:

On June 17 and July 2, 2025, Niagara Mohawk Power Corporation d/b/a National Grid filed with the Commission its Environmental Management and Construction Plan (“EM&CP”) for the above-referenced project, and on October 22, 2025, National Grid filed a supplement to the EM&CP in response to comments received from staff of NYSAGM. Subsequently, National Grid received comments on these filings from DPS Staff and staff of NYSDEC, and on a call with representatives of these agencies on January 21, 2026, agreed to make further revisions to the EM&CP to address these comments.

Accordingly, enclosed for filing in this proceeding are replacements, in whole or in part, of the following six documents containing revisions to portions of National Grid’s EM&CP:

- EM&CP Narrative;
- Appendix A – P&P Drawings (replacing sheets 6 and 7 only);
- Appendix C – Waterbodies and Wetlands;
- Appendix G – SWPPP (replacing Narrative only);
- Appendix S – Rare, Threatened and Endangered Species; and
- Appendix Y – Culverts (replacing Sheets CP-04A, 13, CP-67, and CP-68 only).

Respectfully submitted,

/s/ David T. Metcalfe
